**SERVICE & SUPPORT**

NTS provides a full complement of system services and support to help Customer get the most out of its NTS custom system solutions. The proposed solution includes extensive hardware and software support.

NTS will be the focal point of contact for service and support on all equipment and software purchased through this contract.

NTS support contracts are renewable on an annual basis or can be purchased upfront with multi-year discounts. The alternative support contract levels are Priority, Priority Plus and Premium. The detailed features offered with each level are described below:

Feature/Support Contract	Priority	Priority-Plus (OPTIONAL)	Premium (OPTIONAL)
Business Hours Phone, Email and Fax Support	X	X	X
24/7 Phone Support			X
3-Year Parts Warranty	X	X	X
Optional Four Hour Onsite Service			X
Optional Spares			X
Optional Onsite Technician			X

**Contact:** Customer Service (James) 1-510-353-4070 x 107

**Hours of operation for the company's offices:** (Monday to Friday, 8am to 5pm, Pacific Standard Time).

**The services offered above are described below:**

- **Phone, Fax and E-mail Support** – Phone and fax support during business hours (Monday to Friday, 8am to 5pm, Pacific Standard Time).
- **24/7 Phone Support** – Premium contracts include 24/7 telephone support. The initial response time after hours is two hours; otherwise response time is within one hour.
- **3-Year Parts Warranty** - All hardware is sold with a 3-year standard warranty.

**Optional Service**

- **Four Hour Onsite Service (Optional)** – The on-site service option is to customers with Priority Plus or Premium Support Contracts. This is an agreement between NTS and you to expedite on-site hardware warranty response for designated components. This service provides that NTS will make its best effort to arrive on-site within 4 hours to replace a defective hardware component, restore the system

to a hardware operational condition, and verify the hardware integrity of the systems.

- **Spare Parts (Optional)** - NTS can provide spare parts at a discount to be located on-site at your facility. This ensures the highest level of reliability, service, and system uptime. If spare parts are purchased with the system, NTS will stock and cross ship the faulty parts as stated herein, and return it to stock as the spares.
- **Onsite Technician (Optional)** – Onsite technicians are available as an additional cost option with support. This is an agreement between NTS and you to have an onsite engineer experienced with NTS solutions to work with you and the NTS system for a period of 12 months. Contract for this service can be renewed on an annual basis.

In addition to these standard contracts, NTS can provide customized support agreements based on additional requirements specifically for you.

### **NTS Warranty**

The proposed System is comprised of all new equipment. This proposal includes a one (1) year warranty against defects in material or workmanship. This warranty covers parts and labor. The warranty period is measured from the time of initial system shipment. All warranty service is provided directly by NTS. Products deemed defective should be returned to NTS after receiving an RMA number from the NTS service department for immediate repair or replacement. The customer pays for shipping of warranty items to NTS, while NTS pays return shipping for authorized RMA returns.

If the package is damaged while receiving, Customers must notify NTS within 48 hours.

Under the proposed support contract, the following provisions apply:

- NTS will process returns items with a valid RMA number only.
- Customer pays shipping to NTS on all returns. NTS will pay for UPS next day on return when replacement or fixed part is shipped to the customer.
- Customer pays shipping to NTS. NTS will pay for UPS next day on return.
- No cross shipping is permitted. NTS must receive defective part with a valid RMA number before return shipment. If spare node(s) are purchased with system, NTS will stock and cross ship them via UPS next day, then repair the faulty nodes as stated herein, and return to stock as the spare.
- Ten business days are required by NTS to repair or replace parts from the day they are received.
- Based on the availability of replacement parts, NTS reserves the right to substitute the returned part(s) with part(s) that are of equal or better quality.

## **Warranty for Third Party Vendors**

NTS is an authorized reseller and system integrator of various systems like Rack Server, Storage systems, Blade server, Desktop & Workstation systems using name brand products like Intel, AMD, Super Micro, Tyan, Cisco, Foundry Networks, Extreme Networks and other hardware and software products. NTS supports these vendors' products resold through NTS in accordance with our standard contract and warranty. All products resold through NTS are serviced directly by NTS to you.

## **PLANNING, INSTALLATION & DELIVERY**

Upon award of this contract, NTS will assign a Project Manager (PM). The PM is responsible for overall coordination of the project and is the focal point-of-contact for Customer To ensure that all team members, NTS management and Customer are kept up-to-date on project status, NTS will hold regularly scheduled meetings and/or teleconference calls with Customer

### **Project Planning**

NTS understands that a detailed project plan is critical to the successful delivery and installation of all systems. It is the focal point for all system-related activity and will be used throughout the project to measure schedule progress and address problem areas. The PM will develop a detailed project plan and oversee project activities from contract award through final acceptance. These activities consist of the types of system implementation activities & milestones described below, but tailored to your needs:

- Full lifecycle project management of resources, materials and schedules including:
  - Equipment build staging
  - Hardware acquisition, configuration and assembly
  - Software acquisition & configuration
  - Integration planning
  - System integration documentation
- Prior to shipping to your facility, we perform the following pre-integration work at our facility:
  - Component procurement and burn-in
  - Hardware assembly
  - Hardware and software integration
  - Overall system performance optimization
